About This Game

Cut bullets with your sword in a gun filled pit. The the fourth volume of the series blends the projectile cutting from the original UBERMOSH, the psionic power Brainclap from UBERMOSH:BLACK, the swarm and endless map from UBERMOSH Vol.3, the new power Manastrike, a new class of enemy, more aggressive enemy respawns, more achievements, various class mods and more music to pump the combat.

From rookie to a godlike entity, UBERMOSH:WRAITH boost up the initial concept of "90 seconds arena" and invites you to react faster to beat your previous scores.

Title: UBERMOSH:WRAITH

Genre: Action, Indie

Developer:

Walter Machado

Publisher:

Walter Machado

Release Date: 29 Jan, 2017

b4d347fde0

Minimum:

OS: Windows XP

Processor: 3.0 Ghz

Memory: 4 GB RAM

Graphics: 1 GB

Storage: 500 MB available space

CONFLICTING UPDATE

RABAN VHART
It is unhappy about Oleg Bakay's disappearance

There is a conflict with another datachunk in: "@PeoplesVoice: Reactions to 'Is anti-Kassart blog involved in Pargesian soldier's disappearance?'"

April 13, 2017

@survivor94 This is a misunderstanding. I am not happy either that Oleg Bakay has gone missing. This soldier is not the one to blame here.

Since this was announced I had high hopes and I'm certainly not disappointed.

Although strictly speaking a HOG, this is one of the most innovative titles of Artifex Mundi. Complete interactive screens with a story that is told through visuals with as little text as possible. The drawings are beautiful and with really nice music. Aimed at both children and adults the hint system is simple, but effective. The puzzles make sense in the world of Brother Rabbit, but don't be fooled by its cute exterior as trying to solve one puzzle requires more thinking than one would expect.

Solid recommendation.. I'm not too far into the game, but I am diggin' it! It takes me back to the old Sierra games, and it succeeds in giving me the chills! It's easy to control and figure out as well. If you're interested in the feel of the game, I've been making a Let's Play of it <https://youtu.be/MBald75cgB0> . Spoilers though, of course.. Such a shame that my solar panel aren't charging my satellite. I like this game. It's not a great production, the background is the same all the time and the music is annoying, but it's cool and the game modes are creative.. This easy and kind of historical point&click adventure game. I finished it almost in 2 hours.

I give 7 out of 10 .. Regarding the clown suit: Wierd flex, but ok. Don't buy this game it is RC2 but with sevens and a roster patch.

\$50(USD) too much.

Poor effort by the developers.

I'm guessing they are enjoying the money made on strippers and beer.

Well the game looks good and runs ok but some story line would be nice and just some more work needs to be put in i like the game and i really would love to play it when there are more updates.

. I like Nightmare on Azathoth. It's an interesting survival game on a planet of darkness. Even daylight doesn't reach the ground, as the creatures you face push away all light on the surface. The enemies are troublesome without being ridiculous (except for the flying head) and are original in their simplicity (except for the flying head). I like the resource management, I like the giant floating monster that summons enemies to attack you when it gets close enough, I like the power system.

The only thing I don't like is the flying head monsters. It's not because they are annoying, it's not because they steadily glitch out worse and worse, it's entirely because of the fact that the flying head monster's model comes from the updated version of the game "Eyes - The Horror Game". This was a theft, as Eyes was made by a completely different person.

But, let's try and focus on being optimistic. Maybe it wasn't theft after all. Maybe Modesto Rabena got permission and used the model. No idea. What I do know is that it means that they decided not to make something original for the game. Even a different looking model would've sufficed.

In the end, I do recommend getting Nightmare on Azathoth. It's difficult in the beginning because of the lack of a tutorial but, you learn quickly by doing things. Once you learn the game becomes significantly easier but, it will still take you time to complete, and the longer it takes the harder it will get as The Silent Ones will become more numerous. It's a fun game, and I do enjoy it. Just wish the flying head monster wasn't so suspicious.

Edit: Upon seeing my review, the developer took time to let me know that it wasn't theft, and that they will be making changes to the flying head in both look and glitchiness. So now I recommend Nightmare on Azathoth even more, since the developer seems willing to fix bugs and errors in the game as soon as they are caught!. kennyS best S. So after 4.5 hours, I'm finna write the review. I thought it was pretty good. People are complaining that the choices are too attuned to what you did in the first one, but I think it's great. That means your choices in the first game actually had meaning and you now are starting to see it. It's not that long, but it's definitely not short, and the time adds up when you have three different characters to play through. Worth every penny. (Especially since I got in on sale for a dollar cheaper). good movie , i live there , its nice in there =c. Hahaha, this game is really fun. Sometimes u just dunno what the hell is going on! There was one moment when the village got burned down and peasant stolen and I got no clue on why/how this happened, or another time when I had to escape from the Tower saving villagers the game just mysteriously took us out to the village. Oh, and my favourite! The library which got me stuck at one point and I raged putting all the books to fire))) looking for a spy/assassin game, then this might be for you. The unique graphics style and great gameplay make this a must have. play with friends on your own server
